EDUCATION

Masters in Human Computer Interaction

May, 2017

Indiana University, Bloomington

Bachelor of Technology

Aug, 2007 - May, 2011

Guru Gobind Singh Indraprastha University, New Delhi

WORK EXPERIENCE

User Experience Design Intern

Apr, 2015 - Jun, 2015

Musejam (startup)

- Worked with the founder to design screens for the website that helped users discover India's live music scene and follow artists.
- Used Sketch and Photoshop to prepare wireframes and production ready assets for the website and mobile.
- Used Mixpanel to better user experience by analyzing user activity.
- Designed screens for Musejam Control Panel where artists can manage their account by uploading songs and videos.
- Designed email templates which were sent to registered users at the time of beta launch.

Co-Founder and Developer

Apr, 2014 - Mar, 2015

StagePotato

- Researched and identified the problems faced by most of the local artists.
- Learned CSS and jQuery to co-develop and design a website which bridges the gap between artists and people needing their services.
- Interviewed different kinds of artists to improve the user interface of the website, and update features list.

Software Developer

Nov, 2011 - Apr, 2014

Nucleus Software Exports Limited

FinnOne Production Support for Reliance Capital Limited, Mumbai

Oct, 2012 - Aug, 2013

- Worked with FinnOne users to resolve live application issues.

Implementation of Enhancements for ING Vysya, Bangalore

Aug, 2012 - Sep, 2012

- Implemented over 30 small application enhancements.
